PROJECTS

Ford Finder 2021 | *Deployed*: https://tinyurl.com/5jcy5hz7 | *GitHub*: https://tinyurl.com/34tnjhdh
- This is a web application that allows users to look through the various models of Fords that are available in 2021, as well as some information about each of them. The technologies used were CSS, HTML, JavaScript, Express, MySQL, Sequelize, Handlebars, Bcrypt, and Bootswatch.

Day Planner | *Deployed:* https://tinyurl.com/pppbycya | *GitHub:* https://tinyurl.com/euh3t9wp
- This is an application that allows users to schedule activities for the current day while saving the data to local storage. It also tracks the time of day to display different styling based on the hour of the day. Technologies used were CSS, HTML, Bootstrap, JavaScript, jQuery, moment.js, and local storage.

Yoda Speaks Quiz | *Deployed*: https://tinyurl.com/3fmf9xcs | *GitHub*: https://tinyurl.com/85pccwfv
- This is a quiz game that asks for information from the user and gives them a phrase that Yoda might say in response to their input. We used HTML, CSS, Bootstrap, vanilla JavaScript, jQuery, and three third party APIs. We dynamically created elements of the HTML as well.

EXPERIENCE

Giide | ***Software Development Apprentice*** | Boulder, CO   December 2021 - Present
- Roles include creating and updating site elements with ReactJS, working with various APIs to circulate data, improving SEO, making Giide's media player embeddable on other sites, providing insight and ideas to improve the site and how we track its use

Whole Foods Market | ***Floater*** | Littleton, CO   August 2020 - March 2021
- Unpacked and stocked new inventory, operated cash register, aided customers in whatever they needed with the added intricacies of working at a grocery store during the pandemic.

Harvest Restaurant | ***Backwaiter*** | Madison, WI   August 2016 – January 2018
- I was a utility tool in the restaurant, helping with the overall flow of meals by setting and clearing tables, running food, and accommodating guests in a variety of fashions.
